"We use SharkNet from 2008 and for us is very simple to install, stable folds, long life and color which does not fade, we are very satisfied."

I am Markus Rickly, and I work for ISP Zurisee, a company extra focused in insect screen in Switzerland. Our name is synonymous of professional and top products in the market of the insect screens. We can say that we are the first company who bought and tried the new version of their pleated insect screens. In fact, when we meet DFM was exactly a couple of months before of the launch of the new version of the SharkNet. We use SharkNet from 2008 and for us is very simple to install, stable folds, long life and color which does not fade, we are very satisfied. We increase every year our turnover with SharkNet, we are a member of the Golden Shark Club and our prevision for next year is to improve again our sells from 10%
